

40% of Actual Size  
Screen Print (one colour)  
Digital Packaging Print  
**FRONT ONLY**

Digital Packaging Print is only available on white and natural products because it is a CMYK print, **no white print** is available. The material of this item is an uncoated print media, this means the ink will absorb into the material and the print will inherit the matt finish of the material creating a more natural vintage look with lower colour intensity.
